Alex Morgan

Software Engineering Student | Aspiring Machine Learning Engineer

Professional Summary

Software Engineering student with hands-on experience building machine learning projects using Python, pandas, scikit-learn, and Streamlit. Interested in artificial intelligence, data science, NLP, and building practical AI applications.

Skills

Python • Machine Learning • Data Analysis • pandas • NumPy • scikit-learn • Streamlit • HTML • CSS • JavaScript • Git • GitHub • NLP

Projects

Customer Churn Prediction

Built and evaluated classification models including Logistic Regression, Decision Tree, and Random Forest to predict customer churn.

Credit Card Fraud Detection

Developed a fraud detection pipeline for imbalanced transaction data and improved the precision-recall trade-off using probability threshold tuning.

House Price Prediction

Created a regression model to estimate house prices and evaluated performance using MAE, RMSE, and R-squared.

Education

Bachelor's in Software Engineering

Relevant coursework: Machine Learning, Software Development, Databases, and Data Structures.

Interests

Artificial Intelligence • Machine Learning • NLP • Generative AI • Software Development
